

"Words of Wisdom" from Veteran Chemistry Students...

"Great class. I had a lot of fun and learned quite a bit. Make sure you do your homework or you'll get lost quickly." - Branden H.

"Study hard, retain early information, do your homework and you should end up with a good grade." - Christopher R.

"Study and do your work and never wait until the last second." - Colton R.

"Don't get lazy with writing paragraphs because Mrs. Savage will make you re-write them." - anon

"Do your ChemMatters Article Projects and keep paper supplied for labs. Fun but hard." - Wyatt H.

"Learn mole problems the first time, don't make a habit of turning your homework in late, and take notes even if you're not instructed to." - Davie M.

"Study, learn to write, don't be afraid to ask questions and don't copy anyone's work." - Breana M.

"This class is a lot of work!" - anon

"Pay attention. Study. Do your homework. Expect to write a lot of paragraphs. Learn mole problems early on." - Rayanne S.

"Do your work. It might be hard, but stay strong." - Sarah M.

"Learn mole problems the first time, and always stay on top of your work. Be prepared for lots and lots of work. She's crazy!" - anon

"Do your homework and keep up with it. Don't talk too much, and not only finish, but understand the labs. Study for tests." - anon

"Make sure you do all the practice problems and study before the test so you don't get F's like me!" - anon

"Study and be interested in the class." - Joseph P.

"Learn mole problems right the first time! Do all the class work and be ready for tons of work!" - anon

"Learn mole problems the first time because they FOLLOW YOU." - Kaycee G.

"Bring lots of paper because you write lots of paragraphs!" - Tiffany H.

"Make sure to do your homework because it will make or break your grade." - anon

"Know your mole conversions! You will regret it if you don't." - Brianna H.

"Study, do your homework and learn the mole." - Cheyenne M.

"Learn the math when you first start. Study. Pay attention." - Kendal F.

"Always pay attention in class and listen to what Mrs. Savage says. Also, have a really smart friend to explain all this stuff to you." - Whitnee and Stephanie

"Stay on task. Do your work every day. Be active. Follow the teacher's instructions. Make the teacher happy." ☺ - Stael S.

"Make sure you come to class. Missing school can put you behind, and you could miss some really cool labs!" - Katie G.

"Listen to all that Mrs. Savage says because it is important. Also, do all the work because it's not hard, and if you do it, you'll get an A in this class." - Mandy H.

"The first 9 weeks are important! You have to remember a lot that will be used throughout the year! Learn the T-chart!!!" - Justin M.

"Try to understand everything as it comes. The knowledge she gives us is what we use throughout the year." - Arianna E.

"Love MATH and STUDY!!! Have FUN." - Austin S.

"Do the math and ask a lot of questions." - Morgan K.

"Do your ChemMatters Article Projects on time." - anon

"Pay attention and ask questions. It can only make you smarter." - Katie S.

"Stay organized, and turn in all of the work because there is a lot of it. Always be curious." - Robbie N.

"Make sure you thank Ms. Savage because she is a very nice and extraordinary teacher. Study!!! It's a lot of fun in the labs." - Ashley C.

"Come to class!!" - Malina T.

"Be good at math problems! Study!" - Taylor F.

"Expect to have hard work and math. But, at the end of the day, there's always something fun like an experiment or video!" - Caroline G.

"Focus. Do your work. Listen to Mrs. Savage and do NOT touch any chemicals in the lab (without permission). Also, bring a jacket because it is really cold. Beware of blonde moments." - Jacey W.

"Always pay attention no matter what. Stay on top of your work at all times. Don't miss a lot of class." - anon

"May the force be with you!! Always remember CHEM-IS-TRY. Learn new things. Good luck!!" - Briana G.

"Read the material." - anon

"Not everything you do will be perfect, in fact, nothing is perfect. But make the most of this class because even though chemistry is hard, it is also very fun. Plus, you have a very awesome teacher." - Tony C.

"STUDY A LOT!" - Ryleigh D. and Arika G.

"Write down all notes and examples. Study, tests are difficult. Do all ChemMatters and labs because it brings your grade up." - Natalie N.

"Do you homework. Learn the math! It's important!" - anon

"Study, study, study. Pay attention why you're learning the periodic table because it helps a lot." - Marli M.

"LAB DAYS ARE THE BEST DAYS." - Marli M., Morgz C. & Natalie N.

"Don't have your phone out all the time and pay attention or you will end up like me." - Darien S.

"Chemistry is an extremely fun and fascinating class; it can be a complete joy or a miserable nightmare. Manage your time, make sure you understand everything, and it will be one of your favorite classes." - Menelik G.

"She takes Mole Day very seriously. Come prepared." - Hannah M.

"Find a way out!" - anon

"Study study study!!!" - anon

"Don't Get Behind!" - Jae W.

"All the demos are very good and help you understand." - Vanesa C.

"PAY ATTENTION!" - Inek

"Do you ChemMatters and CISM's. They are big assignments!" - anon

"Do all the work and pay attention and you will do well." - anon

"If you do all your work, come to class, and do the ChemMatters Projects, you will pass and have an easy year." - Kevin C.

"Just come to class and do your ChemMatters!" - Mike S.

"Go to school every day. Do ChemMatters. Obey Ms. Savage." - Mason S.

"Do ALL your work. Don't miss if you can help it. If you have questions, just ask. Stay organized." - anon

"Do the work and you will pass... easily." - Brady B.

"Do ALL of your work and ChemMatters." - Kelsey S.

"Don't fall behind; do your work; be respectful to Ms. Savage." - Logan C.

"Get out while you can!" - anon

"Do your work." - Morgan B.

"Don't drop a beaker and let glass shatter everywhere." - Jacob L.

"Pay attention and do all assignments." - Josh L.

"Pay attention in class and complete all work given. Study for every test, but don't be sad if you don't pass. Keep working hard. Chem class is a lot of fun with Ms. Savage. We do tons of interesting labs!" - Samantha S.

"PAY ATTENTION ALWAYS! Almost everyone (in my class) fails the test, so don't be sad." - Savannah B.

"Good luck and do ALL of your work! You will most likely fail the tests (I did)." - Savannah S.

"Do Your Homework! Chemistry gives you a better understanding of literally all things." - Forest A.

"Pay attention and do everything such as homework, tests and labs." - Noah D.

"Always pay attention! No matter how hard the math is; study, study, study!" - Meagan B.

"Remember to always pay attention and concentrate. Try your best and never give up." - Kayla G.

"Do well on ChemMatters because it will help your grade. The math looks tough, but it is easy if you PAY ATTENTION! Don't play around in the lab. Mrs. Savage is a great teacher, and you will do well if you listen to her. She deserves your respect."
- Mariah B.
